seifalmotaz@outlook.com

Seasoned Software Developer proficient in Flutter/Dart for UI design and Python, SQL, and FastAPI for backend development. Contributed to notable projects like NAAB.app and RemoteOS.io, driven to innovate within collaborative environments.

EXPERIENCE

PayRows, Remote— *Flutter Developer*

AUG 2022 - PRESENT

As Flutter Developer, I have been actively involved in the development of web, mobile, and desktop applications. My responsibilities encompass the entire app lifecycle, from initial creation to continuous enhancement and feature implementation.

Projects: [NAAB.app](), [RemoteOS.io]()

CodraTech, Remote— Flutter/*Python Developer*

MAR 2024 - PRESENT

As a Flutter/Python Developer, I developed and maintained mobile applications and backend systems using Flutter and Python. I provided strategic recommendations to enhance project concepts and ensure scalability, leveraging my previous experience, I focused on delivering high-performance, user-friendly products while collaborating with cross-functional teams to ensure high-quality solutions.

Projects: [LACTIVITY]()

PROJECTS

[Shaheen Bookings]() — *Freelance*

As the Mobile Developer for the Shaheen Booking App, a referral platform for booking travel and hotel plans, I collaborated with frontend, backend, and UI/UX teams to develop and optimize the app, ensuring the highest possible quality.
